As an American Citizen, I am concerned on bill S. 155. I feel that this bill is violating an individuals right to belong to an organization, you are considered a gang member. Or if you solicit or recruit you are conspiring with the intent to cause this person to commit offensive crimes. Targeted Organizations.

According to the First Amendment, I am guaranteed the right to associate with whomever I choose, for a law that chooses to describe a group or groups of people who law enforcement under its discretion can simply title a gang would fall under this new Legislation, I believe is a crime in itself. I am hoping you will not allow such Legislation to take place under your watch. Keep in mind you are the voice of the people, please let my voice be heard.

Thank you for your consideration.

I, _____ as an American Citizen, I am in opposition of the S.155, a reply with your opposition on this matter would be greatly appreciated.

Sincerely,
